"Forbidden Coffee" is born from the marriage of rich coffee aromas and the botanical character of our house-made gin. We use coffee beans meticulously flame-roasted by "OK COFFEE Saga Roastery" in Saga Prefecture to draw out deep, full-bodied richness and a fragrant profile. The coffee's subtle bitterness blends with the refreshing finish of juniper berries and citrus, creating a flavor that feels almost illicit—and truly unforgettable. It is a coffee liqueur for adults that captivates the senses with every sip.
